Hands-on Seminar Presenting: The “Game Changer” in Vertical Gardening

Be the first group of Aquarius Customers to witness the future of Vertical Gardening. The Aria System from Evo Organics is a complete revolution in vertical gardening. It is now possible to install self contained ,water tight, systems both indoors and outdoors at a fraction of the price of all current systems on the market.

From small vertical gardens in someone’s kitchen or restaurant to enormous vertical plantscapes on the exterior of commercial buildings. Anything is possible with this amazing modular system.

See Reverse Side for Details of this Amazing Product.
